- ▶ **PACO – Oncology Access and Continuity of Care Point** is a service dedicated to patients undergoing their first oncology consultation, upon referral by a General Practitioner (GP), a specialist, or other facilities within the regional healthcare network.

To request a first appointment, you can:

- **send an email** to paco@asl.rieti.it
- **book through the CUP** (Central Booking Office), by presenting a referral from a General Practitioner or an NHS specialist with the following description: *Prima visita oncologica 89.01 (note: PACO)*.

The PACO staff provides informational and organizational support, accompanying the patient and the caregiver throughout the entire diagnostic-therapeutic pathway. Particular attention is given to the initial welcoming and orientation phase, providing personalized guidance on treatment options while taking into account both clinical aspects and the emotional dimensions related to the pathology.

Other informations on <https://www.asl.rieti.it/ambulatorio-paco-punto-di-accesso-e-di-continuita-di-cura-oncologico/>

Alongside the most appropriate oncological treatment, PACO facilitates access to the following support services:

- **Nutritional evaluations and consultations**
- **Individual psychological support**
- **Rheumatology consultations**
- **Endocrinology consultations**
- **Cardiology consultations**
- **Physiatry consultations**
- **PICC Team for vascular access management**
- **Guidance and administration of vaccinations**
- **Guidance and performance of cancer screenings**
- **Connection with the local network for continuity of care**, including the pain management network, palliative care, and integrated social-health services
- **Multidisciplinary evaluation** through:
 - **GICO** – Interdisciplinary Oncology Care Group (breast, genitourinary, and colorectal pathologies)
 - **RIEO** – Interdisciplinary Group for the management of cases not covered by GICO pathways

Opening Hours: Monday to Friday, from 8:30 AM to 5:00 PM

Phone Contacts: 0746/278052 – 0746/278385
